The Deliberate Creator’s Declaration of Independence

Description

When, in the course of human events, it becomes necessary to dissolve the Mental, Emotional, Physical and Energetic bonds which have connected one person to another, and to assume among the powers of the Earth, the separate and equal privileges to which the laws of the Universe entitle them, their own self-respect requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all Deliberate Creators are created equal. That they are endowed by their Creative Source with certain unalienable rights and that among these are life, liberty, abundance, joy and the pursuit of happiness.

To secure these rights, certain thoughts, beliefs and ideologies have been instituted among men and women, deriving their just powers from the consent of the people. And whenever any of these thoughts, beliefs or ideologies becomes destructive to these unalienable rights, it is the responsibility of Deliberate Creators to alter or abolish them, and to institute new ones, laying their foundation on such principles and organizing their powers in such form, as to them shall seem most likely to empower their natural states of abundance, joy and love.

Prudence, indeed, will dictate that beliefs long established should not be changed for light and transient causes. But experience has shown that individuals are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the beliefs to which they are accustomed. But when existing thoughts, beliefs and ideologies sabotage, subvert and ultimately destroy the will of Deliberate Creators, it is their right, it is their duty, to throw off such belief systems, and to create and embrace new beliefs that empower their strength, prosperity and evolution.

Such has been the patient sufferance of these Deliberate Creators; and such is now the necessity which constrains them to alter their former systems of thought, belief and ideology. The history of the existing Prevailing Belief System is a history of ongoing injury and usurpation, having in direct object the establishment of an absolute tyranny over these Deliberate Creators.

To prove this, let facts be submitted to a candid world.

- This belief system would have us base our actions on fear.
- This belief system holds that we lack personal power.
- This belief system affirms that we are unable to manifest our desires.
- This belief system defines the world as a dangerous place.
- This belief system alleges that scarcity and lack is our natural state.
- This belief system asserts that we are meant to struggle and suffer.
- This belief system avows that vulnerability, intimacy and trust are weaknesses.
- This belief system affirms that we are unworthy, undeserving and not good enough.

We, therefore, the representatives of the Deliberate Creators of the World, appealing to the Creative

Source for the rectitude of our intentions, do, in the name, and by the authority of all Deliberate Creators, solemnly publish and declare, that we are, and of right ought to be free and independent from the Prevailing Belief System; that we are absolved from all allegiance to those beliefs and that all Mental, Emotional, Physical and Energetic connections between us and the Prevailing Belief System, are and ought to be totally dissolved; and that as free and independent Deliberate Creators, we have full power to attract our desires, seek ever greater joy, engage in inspired action, bask in the limitless abundance of this Universe, and do all other things which true Deliberate Creators may of right do. And for the support of this declaration, with a firm reliance on the protection of the Creative Source, we mutually pledge to each other our support, our encouragement and our sacred honor.
